DAILY SCRUM

Question	Date			
	March 9 (Tues)	March 12 (Fri)	March 16 (Tues)	March 19 (Fri)
What did you accomplish from the previous day?		Researched about SCRUM	Researched about sitemap and wireframe	Made a decision what site to make
What did you learn from the previous day?		SCRUM Events: Sprint Planning Daily Scrum Sprint Review Sprint Retrospective	What is a sitemap and wireframe How to make a sitemap and wireframe	Choose the topic/context you are interested to
What will you do today?	Research about SCRUM and its components	Research about sitemap and wireframe	Decide the topic/context of the site	Start Scrum * Product Backlog
Question	March 23 (Tues)	March 30 (Tues)	April 6 (Tues)	April 7 (Wed)
What did you accomplish from the previous day?	Researched further about product backlog Started making product backlog	Continued making product backlog Researched about sprint backlog	Finished sitemap	Finished wireframe
What did you learn from the previous day?	It is important to have the perspective of the customer in making a website	It is important to set the task to track the progress	As you make an outline, new ideas comes in	It is better to decide what your site looks like before doing the code to avoid continuous revisions
What will you do today?	Continue Product Backlog Research and start Sprint Backlog	Make Sitemap	Decide which pages to make a wireframe	Finalize Scrum details, Sitemap, and Wireframe

SPRINT REVIEW	
Sprint Goals	Status
Learn and apply Scrum	Done
Sitemap	Done
Wireframe	Done

SPRINT RETROSPECTIVE	
Question	Answer
What worked well?	The segregation of tasks to different days Took a few hours to finish the goal for each day
What caused problems?	Continuous revisions Motivation to do work regressed
What could be done for the next sprint to avoid these problems?	Have an end goal from the start to avoid continuous revisions Avoid negative thoughts and focus on the end goal
